

# DISMANLING BSL

## 01 Tape reels

Reusable

Catalogue categorization: 01

## TECHNICAL DATA - SPOOLS

### Spools

| Flange Ø | Barrel Ø | Central bore Ø | Width   | Winding width | Flange thickness | Winding-<br>volume   | Central bore Ø<br>tapered part | Drive-<br>hole/pin | Drive-<br>distance |
|----------|----------|----------------|---------|---------------|------------------|----------------------|--------------------------------|--------------------|--------------------|
| d1 [mm]  | d2 [mm]  | d3 [mm]        | L1 [mm] | L2 [mm]       | S [mm]           | V [cm <sup>3</sup> ] | d4 [mm]                        | d5 [mm]            | E1 [mm]            |
|          | 315      |                |         |               |                  |                      |                                |                    |                    |

## PACKAGING

| Designation    | Cardboard<br>box | Cardboard box<br>weight | Cardboard box<br>Outside<br>Deminsions | Pallets | Pallet<br>weight | Pallet's<br>external<br>dimensions |
|----------------|------------------|-------------------------|--|---------|------------------|------------------------------------|
|                | piece            | kg                      | cm                                     | piece   | kg               | cm                                 |
| Dismanling BSL | 1                | 2.5                     | 34x34x23                               | -       | -                |                                    |

### Important:

If pallet packaging is indicated, this is the preferred method of packing the spools. Please note that the pallets must not be stored in direct sunlight, as the heat build-up may cause the plastic to warp permanently.
