

# REEL DEMOPAC® 400 X 250

16 Demopac®

Reusable

Winding material : data cable, power cables, Extruded cables, Insulated cables, optical cables, Signal cable

Material : ABS

Standard winding volume : 17259 cm<sup>3</sup>

Central bore Ø : 80 mm

Catalogue categorization: 16

## TECHNICAL DATA - SPOOLS

### Spools

| Flange Ø | Barrel Ø | Central bore Ø | Width   | Winding width | Flange thickness | Winding-<br>volume   | Central bore Ø<br>tapered part | Drive-<br>hole/pin | Drive-<br>distance |
|----------|----------|----------------|---------|---------------|------------------|----------------------|--------------------------------|--------------------|--------------------|
| d1 [mm]  | d2 [mm]  | d3 [mm]        | L1 [mm] | L2 [mm]       | S [mm]           | V [cm <sup>3</sup> ] | d4 [mm]                        | d5 [mm]            | E1 [mm]            |

|             | piece         | kg                   | cm                               | piece   | kg            | cm                           |

**Important:**

If pallet packaging is indicated, this is the preferred method of packing the spools. Please note that the pallets must not be stored in direct sunlight, as the heat build-up may cause the plastic to warp permanently.
